

ASSIGNMENTS COMPLETED BY JASPERS IN ROMANIA AS AT 1st MARCH 2017: 247

RAIL, AIR AND MARITIME

CEF - Modernisation of Sighisoara - Brasov railway

Development of a river information system for the Danube

Development of a river Information system for the Danube – Black Sea Channel

Waste collection system - depolluting vessels on Danube Sulina-Braila

Improving the Railway Safety by installing a system of Hot Axle Box Detectors

Rehabilitation of Bucharest Metro Line 2

Danube navigation improvement - Section 3 Navigable channels

State aid for multi-modal terminals

Strategy for the development of Regional Airport.

Modernisation of Simeria - Coslariu railway

Modernisation of Railway Bridges over Danube

Modernisation of Coslariu - Sighisoara railway

Modernisation of railway bridges Constanta region

Modernisation of railway stations Bistrita, Sf Gheorghe, Zalau

Modernisation of railway stations Botosani, Piatra Neamt, Vaslui, Braila

Improving the railway safety by installing a system of hot axle box detectors

Improving the railway safety by installing an electronic interlocking system on the rail section Siculeni – Onesti

Improving the railway safety by modernising level crossings

Improving the railway safety by installing an electronic interlocking system on the rail section Iliia-Lugoj

Modernisation of railway stations Calarasi, Slobozia, Giurgiu

Modernisation of railway station Pitesti

Modernisation of railway stations Rm Valcea, Slatina and Resita

Modernisation of railway section Curtici - km 614

Modernisation and development of Constanta port infrastructure

Upgrading of regional airports

Modernisation of Railway Station Alexandria

Support to CFR on mobilising TA for project management

Modernisation of Railway Station Tg Mures

Danube navigation improvement - Danube-Black Sea Canal Locks

Bank protection works on Sulina Channel

Construction of Bucharest Metro Line 5: Raul Doamnei - Eroilor section

Extension of Bucharest Metro Line 4: Parc Bazilescu - Straulesti section

Extension of Bucharest Metro Line 4: Gara de Nord - Gara Progresu section

Implementation of ECTS / ERTMS level II on Chitila-Crivina section

Rehabilitation of Bucharest-Constanta railway line (section: Bucharest Nord-Baneasa and Fetesti-Constanta)

ROADS

Support for the preparation of the general Action Plan for road safety improvement measures

Rehabilitation of NR 1H, Zalau - Rastoci, km 75 + 446 - km 128 + 823

Rehabilitation of DN1C km155+125-km216+630/DN19km135+000-150+000

Construction of Timisoara - Arad Motorway

Rehabilitation of DN 15 and DN 15A

Construction of Timisoara - Lugoj Motorway

Construction of Orastie - Sibiu Motorway

Construction of Lugoj-Deva Motorway

Upgrading of TEN-T National Roads N 24& N 24B

Upgrading of Zalau - Alesd TEN-T National Road

Construction of Constanta bypass

Construction of Cernavoda - Constanta Motorway

Rehabilitation of DN 56

Rehabilitation of DN 66

Rehabilitation of DN14 Sibiu-Medias and Medias-Sighisoara

Rehabilitation of DN 76

Construction of Suceava Bypass

Construction of Nadlac Arad Motorway

Evaluation of road projects proposed for SOP-T

Construction of by-pass Brasov (Section I DN1-DN11 and Section III DN13-DN11)

Support to Standardisation of Tender Documents for the Transport Sector in Romania

Modernization of DN 73 Pitesti-Campulung and Campulung-Brasov

Rehabilitation of NR 1C Dej-Baia Mare, km 61+500-km 147+990

Support to Motorway User Charge Strategy in Romania

Construction of Dumbrava-Deva motorway

Construction of Sebes-Turda Motorway

Upgrading of Alexandria - Craiova TEN-T National Road

Construction of Carei by-pass

Upgrading of Bucuresti - Adunatii Copaceni TENT-T National Road

Construction of Sacuieni by-pass

WATER AND WASTEWATER

CBA Support to Romanian Water Sector for 2014-2020 Perspective

Screening of Romanian wastewater projects

Environment-DBO approach in water sector (possible BO approach for waste projects)

Support for the preparation of the OP Infrastructure - Environment 2014-2020

Extension and Rehabilitation of Water and Wastewater Infrastructure in Suceava County

Identification of bottlenecks in the implementation of Romanian Wastewater Projects

Preliminary criteria and guidelines for the prioritisation of water and wastewater investments

Craiova-Promoting PPP in water, wastewater and waste management sectors.

Arad-Promoting PPP in water, wastewater and waste management sectors.

Environment-Database with unitary costs for water and sanitation sector

Environment-Planning parameters for water and sanitation projects.

Upstream support in preparation of flood risk maps

Protection against coastal erosion

Extension/modernisation of the water supply/sewerage in Arges County (SOP I 2007 – 2013)

Extension/modernisation of the water supply/sewerage in Galati County (SOP I 2007 – 2013)

Guideline for the Application Form for Major Projects in the Water Sector

Extension/modernisation of the water supply/sewerage in Mehedinti County (SOP I 2007 – 2013)

Extension/modernisation of the water supply/sewerage in Caras-Severin County (SOP I 2007 – 2013)

Extension/modernisation of the Bucharest wastewater infrastructure (SOP I 2007 – 2013)

Study on the management of sewage sludge in Romania

Flood risk management - Efficient response

Extension and rehabilitation of the water and wastewater infrastructure in Maramures County

Ad-hoc support for water and waste water sector

Flood management - master plan Prut-Barlat

Development of a flood risk management strategy

Extension/modernization water supply/sewerage system in Satu Mare county.

Extension/modernization water supply/sewerage system in Alba county

Pilot implementation support – standardised tender documents

Screening and identification of “no regret” flood risk management investments across Romania

Extension/modernisation of the water supply/sewerage in Calarasi County (SOP I 2007 – 2013)

Extension/modernisation of the water supply/sewerage in Vaslui County (SOP I 2007 – 2013)

Strengthening the capacity to perform CBA.

Extension/modernization water supply/sewerage system in Neamt county

Extension/modernization water supply/sewerage system in Valcea county.

Extension/modernization water supply/sewerage system in Prahova county.

Extension/modernisation of the water supply/sewerage in Tulcea County (SOP I 2007 – 2013)

Extension/modernisation of the water supply/sewerage in Giurgiu County (SOP I 2007 – 2013)

Extension/modernisation of the water supply/sewerage in Teleorman County (SOP I 2007 – 2013)

Extension/modernisation of the water supply/sewerage in Brasov County (SOP I 2007 – 2013)

Deva-Hunedoara water supply and waste water infrastructure

Extension/modernisation of the water supply/sewerage in Olt County (SOP I 2007 – 2013)

Extension/modernisation of the water supply/sewerage in Cluj and Salaj Counties (SOP I 2007 – 2013)

Extension/modernisation of the water supply/sewerage in Sibiu County (SOP I 2007 – 2013)

Extension/modernization water supply/sewerage system in Bistrita-Nasaud county

Extension/modernization water supply/sewerage system in Constanta county

Extension/modernization water supply/sewerage system in Arad county

Extension/modernisation of the water supply/sewerage in Gorj County (SOP I 2007 – 2013)

Phase II of the Efficient Response Save Lives Programme

Extension/modernization water supply/sewerage system in Vrancea county

Extension/modernization water supply/sewerage system in Covasna county

Extension/modernization water supply/sewerage system in Harghita county

Fast track flood projects

Extension/modernization water supply/sewerage system in Braila county

Extension/modernization water supply/sewerage system in Dambovita county

Extension/modernization water supply/sewerage system in Buzau county

Extension/modernization water supply/sewerage system in Iasi county

Extension/modernization water supply/sewerage system in Mures county

Feasibility Study of costal protection and rehabilitation project at Mamaia Sud and Eforie Nord (Black Sea) - Romania

WATMAN-Integrated Water Management System

Extension/modernization water supply/sewerage system in Bihor county

Preparation of a pipeline of water projects for 2014-2020

Ad-hoc support 2010 - Water, Wastewater and Flood Risk Management

Increasing the capacity for intervention in case of multi-risk disasters

Support in the Preparation of Sludge Management Plans in Romania

Bucharest wastewater infrastructure investments for 2014-2020

SMART DEVELOPMENT

Preparation of the second phase application for the ELI NP project

Development of Broadband Infrastructure projects in market failure areas

Support for the preparation of the OP Competitiveness 2014-2020

Supporting the strategy definition and infrastructure in the broadband sector.

Assistance to develop a Smart Specialization Strategy 2014-2020

Extreme-Light-Infrastructure (Nuclear Physics Facility) in Magurele-Bucharest

Investment Programme for the Rehabilitation of Historical Centres

Development of an Investment Programme for the financing of scientific parks

Assistance in re-notification and phasing of the RoNet national broadband project

Preparation and assistance in the submission of the second phase of the RoNet broadband project

Development of a Monitoring Mechanism for RDI in Romania

ENERGY AND SOLID WASTE

Rehabilitation of historically contaminated sites from mining activities (West zone 2 and North zone 2)

Impact assessment of economic instruments on waste recycled/recovered from landfills in Romania

Impact assessment of economic instruments on waste recycled/recovered from landfills in Romania

Rehabilitation of historically contaminated sites from mining activities

PETROM II - Rehabilitation of contaminated sites

Bacau district heating energy efficiency

FGD system installation for unit 7 of Isalnita thermal power plant

Review the design codes / standards for district heating design in Romania

Botosani district heating energy efficiency

Bacau district Heating energy efficiency

Timisoara district heating energy efficiency

Rehabilitation of contaminated sites - Targu Mures, Mures County

Focsani district heating energy efficiency

Installation of FGD at unit 5- Rovinari power complex

Ramnicu Valcea district heating energy efficiency

Oradea district heating energy efficiency

Support in drafting standardised tender documents for waste management projects

Iasi district heating energy efficiency

Installation of FGD at unit 4 - Rovinari power Ccomplex

Rehabilitation of contaminated sites - HCH contamination of the Transylvania highway in Turda

FGD system installing at Deva Mintia power plant - groups 3

FGD system installing at unit 8 - Isalnita power plant - Craiova -Power Complex

Oradea district heating project

Waste management in Brasov II - energy recovery

Focsani district heating project

Botosani district heating project

Resita district heating project

Ramnicu Valcea district heating project

Integrated solid waste management in Galati County - Phase II

Implementation support to Oradea district heating - modified investment plan

Implementation support to Iasi district heating - modified investment plan

Integrated solid waste management in Maramures County

Integrated solid waste management in Harghita County

Integrated solid waste management in Gorj County

Integrated solid waste management in Hunedoara County

Integrated solid waste management in Mehedinti County

Ad-hoc support for solid waste and energy sector

Integrated solid waste management in Galati County

Model of economic analysis for energy projects

Integrated solid waste management in Dolj County

Database with unitary costs for renewables Energy and Energy E projects a industrial end users

Preparing call for proposals (for energy efficiency, renewables, FGDs)

Energy efficiency programmes for the EU Funding Period 2014-20

Guidelines for filling in the application form for solid waste projects

Support to preparation of OP environment 2014-2020 waste management

Guidelines for filling in the application form for district heating projects

Support to preparation of OP environment 2014-2020 Contaminated Sites

Rehabilitation of contaminated sites - Phosphogypsum stack of SOFERT, Bacau

Ad-hoc support for district heating projects

FGD systems for unit no. 4 of 225 MW, Deva-Mintia power plant

Project pipeline preparation in district heating field - Second wave of projects

Integrated waste management Harghita and Covasna

Implementation support to Focsani district heating - modified investment plan

Project characterisation for OP ENV 2014-2020 - waste management

Integrated waste management Vrancea

Integrated waste management Prahova

Integrated waste management Giurgiu

Integrated waste management Bistrita-Nasaud

Update of guidelines for filling in the Application Form for Solid Waste projects

Integrated waste management Arges

Support for the preparation of the OP Infrastructure - Energy 2014-2020

Model templates for structuring operation contracts - collection, treatment and landfilling of municipal waste

Ad-hoc support for the solid waste and energy sector

Integrated waste management system in Buzau County

Rehabilitation of contaminated sites - PETROM

Integrated Waste management Timis

Rehabilitation of historical polluted sites

Project pipeline preparation in district heating field

Integrated waste management Salaj

Integrated waste management Cluj

Integrated waste management Neamt

Integrated waste management Botosani

Integrated waste management Vaslui

Update of guidelines for filling in the application form for district heating projects

Integrated waste management Iasi

Integrated waste management Constanta

Integrated waste management Arad

Integrated waste management Mures

Ad-hoc support for solid waste and district heating projects

FGD system installing at: Craiova 1 and 2 power plants

Integrated solid waste management in Valcea County

Integrated solid waste management in Tulcea County

Treatment of contaminated soil from Transylvania highway in Turda (Phase II)

Ad-hoc support for energy projects

Integrated solid waste management in Brasov County

Romania - Energy sector State Aid analysis

IASI district heating project

Smart grids investment support strategy for the EU funding period 2014-2020

FGD system installing at RAAN ROMAG TERMO power plant

TIMISOARA district heating project

Project pipeline identification in the energy sector

CBA Energy training for MA and IB programming units

BACAU district heating project

Rehabilitation of contaminated sites - Campina, Prahova County

Increase in energy efficiency of public buildings

Development of an investment programme for residential buildings rehabilitation

Integrated solid waste management in Bihor county

Trans-border Interconnection Resita (Romania)-Pancevo (Serbia)

Rehabilitation of contaminated sites - Turda, Cluj County

Rehabilitation of contaminated sites - Crangurile, Dambovita County

Integrated solid waste management in Ilfov County

MULTI SECTOR

Training for IB and MA regarding the environment impact assessment and environment agreement procedures

Professional training of environmental authorities related to SEA and EIA Directives

Horizontal support for EIA/SEA procedure including projects which are not in the JASPERS Action Plan

Guidelines for EIA procedure applied to infrastructure projects

Support to the environmental authorities in order to fulfil the general ex-ante conditionality related to the EIA and SEA Directives for the next programming period 2014-2020 - Romania

General Transport Master Plan II

Environment-Model of financial analysis

Environment-Model of economic analysis

NETWORKING AND COMPETENCE CENTRE

Professional training of environmental authorities related to SEA and EIA Directives
